## **WP 2. Generic Dual Higher Education Model (DUALSCI model)**

### **Activity 2.1 Development of generic DUALSCI model**

**WP leader:** University of East Sarajevo (UES)

**Deadline:** March 2021

**Description of the activity:** In this working package project team will develop dual higher education model for cantons and entities in Bosnia and Herzegovina – DUALSCI model. This model will be flexible and generic, with possibility to be adjusted and implemented in all parts of BIH. DUALSCI model will summarize the needs of all stakeholders, from companies and HEIs to students and policy makers, collected and analysed in the first work package. The model will offer flexible solutions regarding communication between students, HEIs and companies, duration of internship, financial incentives, student wages, exams, contractual documents etc.

DUALSCI model will represent a base for development of specific dual models in WP4, as well as proposals for improvement of legal framework of involved cantons/entities regarding dual higher education in Bosnia and Herzegovina.

The model will include the set of defined contractual documents: the final form of templates/documents for the implementation of the practical phases will be established (letters of intention, agreements for practical stages in companies, timetables, labour protection forms, final assessment reports). Chambers of commerce from involved cantons/entities will advise on the entity-specific legal and labour contract issues. Partners from program countries will share contract example documents and good practices.

### **WP 3. Creation of Legal and Quality Assurance Conditions for Implementation of dual higher education**

#### **Activities:**

3.1 Amendments to the cantonal/entity laws on higher education and creating of draft laws on dual education of involved entities/ cantons

3.2 Amendments to the Labour Laws

3.3 Amendments to the Accreditation Standards

**WP leader:** University of Sarajevo (UNSA)

**Deadline:** June 2021

**Description of the activity:** In this working package project team with representatives of stakeholders will develop proposals for change of legal framework and quality assurance standards in higher education in order to create legal base for introduction of dual education into higher education of involved cantons/entities. It is foreseen that the changes on cantonal/entity laws on laws on higher education, labour laws and accreditation standards is necessary. Since every canton/entity in BIH has separate legal and educational acts, 4 working groups, for every canton/entity will be made. In all working groups representatives of HEIs, policy makers, students and companies (engaged through chambers of commerce and BIT Alliance) will participate.

Every working group will consider Law on Higher Education and Law on Dual Education in respective canton/entity. These working groups will create the documents with the proposal of the amendments for considered legal acts and submit them to the cantonal/entity authorities. In the first phase, the documents will follow the legal practice from programme countries considered within the

WP1, especially the example from Serbia because of similar legal framework and recent experience regarding implementation of dual education into higher education. This is why the study visit to Serbia is planned right before the work in this WP. The changes in all other secondary laws connected to these laws will be proposed as well. Special contribution to this WP will be done by assistants from the cantonal and entity ministries for higher education. As associated partner, Ministry of education, science, culture and sport of the Herzegovina-Neretva Canton will participate also.

In addition, at the final phase of this WP a document on Recommendations to HEIs in Bosnia and Herzegovina on how to implement dual higher education will be created, in order to initiate implementation and development of dual education in the entire Bosnia and Herzegovina.
