A meeting of the management of the Faculty of Medicine was held with mentors of health care institutions who will accept students of the study program Health Care in their health care institutions for practical work as part of the regular teaching process at the Faculty of Medicine on 04.06.2021. The mentors were appointed by the directors of the health institutions.

At the beginning, Aleksandra Mihajlović Bijelić from the Chamber of Commerce of Republic of Srpska presented the experiences from dual secondary education, and then the experiences from the training of mentors from secondary education, and pointed out the directions of the training of mentors in higher education.

Then doc. dr Nenad Markovic presented dual higher education and specific model of Health Care of dual higher education.

Doc. dr. Jelena Pavlović presented practically mentors of clinical skills, basic settings, different situations and models of behaviour in different situations.

Natalija Hadživuković, MA, presented the booklets for professional practice for all years of study and practically introduced the mentors to the way of managing this booklet, which is the essence of dual higher education. Based on this booklet, mentors will conduct an assessment or assessment of abilities, knowledge and skills that students have acquired in health care institutions.

At the end of the meeting, conclusions were drawn during which the next training of mentors was agreed in September or October 2021. Considering that the mentors were presented with the use of the book of professional practice and practical filling, everyone agreed that the handling of this book is quite clear. filling in for each student individually strive to transfer to students' sufficient knowledge and skills required during all years of study.

The meeting was attended by representatives of health institutions Foca Health Centre, Serbia East Sarajevo Hospital, East Sarajevo Health Centre, Gacko Health Centre, Gorazde Cantonal Hospital, Trebinje Hospital, Trebinje Health Centre, Zvornik Hospital and representatives of the Medical Faculty and the Health Care study program.
