13:50-14:00	Conclusions	Prof. dr Dejan Bokonjic, Doc. dr Nenad Marković , Faculty of Medicine UES
14:00-15:00	Lunch break	

REMARKS

A local meeting of university partners on the project DUALSCI was held at the Faculty of Medicine in Foča on 09.03.2021.

The meeting was attended by representatives of the University of Sarajevo, the University of Zenica, the University of Mostar, the University of East Sarajevo and the project coordinator, the University of Novi Sad.

The meeting was organized in accordance with the necessary epidemiological measures, and the meeting was attended by a total of 11 project representatives.

Vice Rector for Science, Research and Development of the University of East Sarajevo doc. dr Jelena Krunic greeted the participants via the zoom platform.

At the meeting, the activities realized so far were reviewed, drafts of possible models of dual higher education were presented and the future project realization was agreed.

During the meeting, all universities discussed the study programs that will participate in the project and the possibilities of applying the development of a specific model of dual education.

A draft of a generic model with its 6 variants was presented. The participants pointed out that they would review the proposed variants of the generic model in detail, and that they would submit their suggestions and proposals. Participants also pointed out that some of the proposed variants are not applicable to existing study programs, while the variants are not. It was pointed out that the essence of the generic model is to ensure breadth and multiple applicability.

It was concluded that after the adopted generic model all specific models should be based on this generic dual model.
